PROFILE

Passionate and detail-orientated Web Developer with a strong foundation in HTML, CSS, JavaScript, and Java. Adept at growing visually appealing, consumer-pleasant, and responsive websites and internet programs. Experienced in utilising React and Tailwind CSS to decorate consumer interfaces and enhance usual performance. Committed to non-stop studying and staying up to date with the today's enterprise developments to deliver extremely good, modern net solutions.

PROJECTS

Personal Portfolio Website

kashifahmad.com

- Developed a personal portfolio website to showcase web development skills and projects.
- Utilized HTML, CSS, and JavaScript to build a responsive and visually appealing site.
- Integrated modern design principles and responsive layouts for an optimal user experience.
- Incorporated dynamic elements and interactive features, demonstrating proficiency in HTML and CSS.
- Created a project gallery and contact form to highlight and facilitate engagement with my work.
- Implemented performance optimization techniques to ensure fast loading times and smooth interactions across different devices and browsers.

Real Estate Website

DS Enterprises

- Designed and developed a fully functional real estate website using HTML, CSS, and JavaScript.
- Created a user-friendly interface with features including property details, search functionality, and interactive layout.
- Implemented responsive design principles to ensure the website is accessible and performs well across various devices and screen sizes.
- Integrated client-side validation and dynamic content updates to enhance user experience and interaction.
- Employed best practices in web design and development to deliver a professional and visually appealing product tailored for real estate transactions.
- Utilized CSS animations and transitions to enhance the visual appeal and user engagement of property details and interactive elements.
